5

Reasons You Should Be Asking About Digital Dentistry

- 1 You and your family will have a **more comfortable experience.**
- 2 You'll get more information about your oral health, **because your doctor can show you more at your check up.**
- 3 Immediate results will aid with **faster diagnosis and treatments.**
- 4 More streamlined and precise procedures will lead to **better care when you're in need.**
- 5 This all amounts to less anxiety, so you're more likely to see your doctor, and therefore **enjoy better oral health.**

Ask your doctor or dental assistant about the digital technology they use during your appointment today.

Ask. Educate. Smile.

Plus, did you know?

95% of patients who have experienced more advanced technology agree **they receive better care.**

Patients are nearly **2X** as likely to report a **positive experience** if advanced dental technology is used.

74% of patients who reported a positive experience at their last visit said their dentist or dental assistant **shared education** about technology used during their exams or treatments.
