

Get the most from your practice management software – and your practice.

eServices for SoftDent and PracticeWorks Practice Management software is an innovative suite of services that make many mundane and time-consuming (yet critical) front desk tasks as easy as the click of a mouse. With eServices, you can connect electronically with insurance companies, patients, and credit card companies to send statements, file claims, and receive payments faster than ever before. All eServices integrate into your software to make implementation simple. Even better, eServices can take your practice paperless and quickly pay for themselves by saving you time and expense.

eClaims – taking the pain out of claims

Forget filling out different forms for different insurance companies – eClaims lets you file with just a few clicks. You can include electronic attachments of records and even clinical images. Payers who accept electronic claims receive their claims instantly. And for payers who don't accept electronic claims, eServices automatically prints and mails a paper claim for you from our clearinghouse. eClaims even does pre-transmittal validation so you have fewer returned claims. Integrates into SoftDent and PracticeWorks.

- Faster reimbursements – electronic claims are often processed faster than paper.
- Smoother cashflow – a simplified process makes it easier to send claims more frequently.
- Save materials and time – with eClaims, you no longer need to stock different forms and postage or waste time printing, folding, and stuffing envelopes.

Automated Statements – point, click, bill

Forget stuffing envelopes – eStatements lets you send professional looking statements to your patients monthly – even daily – with the click of a mouse. It's the perfect way

to increase cashflow and decrease receivables. Integrates into SoftDent and PracticeWorks.

- Save time and materials – we stock the forms, envelopes, and handle the postage and mailing.
- Maintain control – choose a custom message on all statements or apply specific messages to individual statements.
- Smooth cashflow – eStatements make it easy to send claims more frequently and all statements are mailed first-class for faster delivery.
- Enhance professional image – eStatements are laser-printed on color paper and sent in a dual-window, security lined envelope that includes a return envelope for easy payment.
- Online Statements Option – eliminates paper and postage costs and lets your patients pay for their services online.* This can supplement your existing eStatement print and mail outsourcing or replace the paper process altogether for additional savings!

* Requires ePayment service.

ePayments – more patient options means faster payment

ePayments automatically posts credit card payments to your patient's ledger, saving time and reducing errors. Integrates into SoftDent and PracticeWorks.

- Simplified workflow and reduced errors – fewer steps means fewer opportunities for error.
- Reduced outstanding receivables – electronic credit card and bank drafts give patients greater payment flexibility and improve your cashflow.
- Easier settlement and no double posting – balancing transactions has never been simpler!
- Simple online payments – patients simply log on to your website to see their balances and make secure electronic payments 24 hours a day.**

Payment posting using ePayments for PracticeWorks

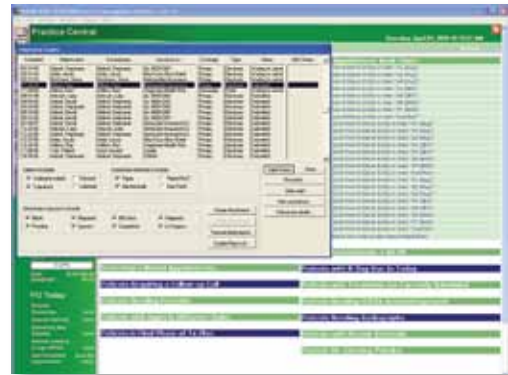

eVerifications – status made simple

Stop wasting valuable time on hold with insurance companies! Our insurance eligibility and claim status service lets you check your patients' insurance eligibility, benefits, and claim status online in seconds. Integrates into SoftDent and PracticeWorks.

- Improved accuracy – up-to-date insurance information lets you help patients make informed decisions and address issues that might slow treatment acceptance in advance.
- Enhanced productivity – because you're not sitting on hold, you're free to perform more valuable tasks.

** Requires T.Link service.

- Saved data for future reference – all eligibility and benefit information is stored in the patient's record to help with future decisions.

ePostings – save hours by auto-posting bulk payments

ePostings is our intuitive tool that automatically notifies you when EOBs are received and then posts the payments directly to the appropriate patient within SoftDent Practice Management software. Your team no longer has to spend hours deciphering detailed paper EOBs. Integrates into SoftDent and coming soon to PracticeWorks.

- Save time – no need for manual postings.
- Increase efficiency – no more filing or searching for paper EOBs.
- Maximize accuracy – Auto post payments directly to patients' accounts.
