## **KODAK 1500 Intraoral Camera Recognized by DrBicuspid.com Community as the Best New Diagnostic Device in 2009**

**Atlanta, Feb. 12, 2010** – DrBicuspid.com’s professional and editorial community names the KODAK 1500 Camera as the Best New Diagnostic Device in 2009. PracticeWorks, LLC, the exclusive maker of KODAK Dental Systems, will officially receive the award at the Chicago Midwinter Meeting later this month.

In its inaugural year, the Dental Excellence Awards recognize the very best people, products and services that are helping to improve the dental industry. The votes are cast by members of the DrBicuspid.com professional community and DrBicuspid.com readers and honor the best of what dentistry has to offer.

"Receiving this award from DrBicuspid.com affirms that we are delivering our promise of excellence on an ongoing basis," said Patrik Eriksson, president and CEO of PracticeWorks. "A quality-based award from a professional community is one of the most powerful endorsements a company can hope to receive."

Combined with the industry’s highest resolution for still images (1024 x 768), the KODAK 1500 Camera also offers unique, liquid lens technology that works like the human eye to ensure effortless image capture and clear, detailed images. The camera is built with a wide focus range (3mm and greater) and a video capability at a resolution of 640 x 480.

DrBicuspid.com also recognized three PracticeWorks Modules (KODAK PEARL Module for ORTHOTRAC, eForms, and KODAK Acquisition Module) as semi-finalists for the Dental Excellence Awards in the Best New Software category.

For more information on the KODAK 1500 Camera or to request a product demonstration, call (800) 944.6365 or visit [www.kodakdental.com](http://www.kodakdental.com).
