KODAK Orthodontic Imaging Software Version 9 Offers New Tools to Optimize Case Presentations

ATLANTA, GA, September 16 — A new version of KODAK Orthodontic Imaging Software, released today by PracticeWorks, Inc., offers a variety of new features to help optimize case presentations. The perfect accompaniment to OrthoTrac software, the new version 9.0 contains editing tools, a gallery editor, flexible gallery displays, word processing integration and painting tools. There are also optional cephalometric tracing and treatment planning modules.

New version 9.0 features include:

- Slide show viewer
- Superimposition of two images
- Movie player and editor
- Morphing of two images (before and after)
- Stretch tool
- Automatic red-eye reduction
- 1:1 printing capability
- Online help
- Server module¹
- Macintosh compatibility via Windows running in Boot Camp, Fusion, or Parallels
