

Simply Digital. Simply Essential.

Improve your practice's efficiency and workflow by taking your patient intake process completely digital. Carestream Dental's Patient Forms provide an intuitive and easy to use process for entering patient demographics as well as direct inputting the data into your practice management software.

Your customers will appreciate the convenience, as will your team—ultimately improving customer relations, office efficiency, accuracy of information and your practice's overall profitability.

- Go contactless and stop using paper forms, clipboards and pens.
- Utilize the included COVID-19 screening form based on ADA recommendations.
- Mitigate errors from manual data entry and free up valuable staff time.
- Improve patient engagement as patients can complete forms anytime, anywhere.
- Deliver a premium patient experience with simpler, intuitive forms and no waiting room filling.
- Ensures a high level of patient data security, as this solution is HIPAA compliant
- Customize* per your practice's requirements while leveraging a series of readily available stock forms.
