

Broaden Your Client Reach: Become a Carestream Dental Preferred Lab

How do you differentiate yourself to your clients? If you've been considering ways to grow your business, offering dental practices the convenience of submitting digital impressions to your lab can expand your clientele and lead to increased revenue. Let doctors know you're capable of receiving digital impressions from their Carestream Dental intraoral scanning devices by becoming a Carestream Dental Preferred Lab.

Become a preferred lab in 5 easy steps:

1. CALL

Carestream Dental Customer Care at **866.724.6317**. Press 1 to select Carestream Dental Equipment, then 4 to select CAD/CAM Scanner and Milling Solutions, then 1 to select Intraoral 3D CAD/CAM Scanner

2. COMPLETE

and return the easy lab questionnaire

3. ACCEPT

the test case from Customer Care; don't worry, we'll help you set up CS Connect for fast and easy transmission

4. VERIFY

with Customer Care that you are successfully able to accept and use the digital impression files.

5. ENJOY

the benefits of having your business listed on the Carestream Dental Preferred Lab list on the company website, where doctors will see that you're ready to accept their digital cases.

Between the convenience, speed and efficiency that digital impressions offer both you and your clients, now is the perfect time to consider expanding your business with digital options.
