Manually Adding CDT 2022 Codes

This job aid is designed for users of PracticeWorks practice management software v8.x and provides instructions for manually adding CDT 2022 codes.

Important: If you are upgrading PracticeWorks from version 8.x to 10.x or higher, refer to Online Help for instructions on using the Patch Master utility to install the latest CDT code set.

Note: With the PracticeWorks v9.0 and v9.1 upgrade, the application will prompt you to automatically download and install your CDT 2022 code set. This will be true for all future CDT code sets as well.

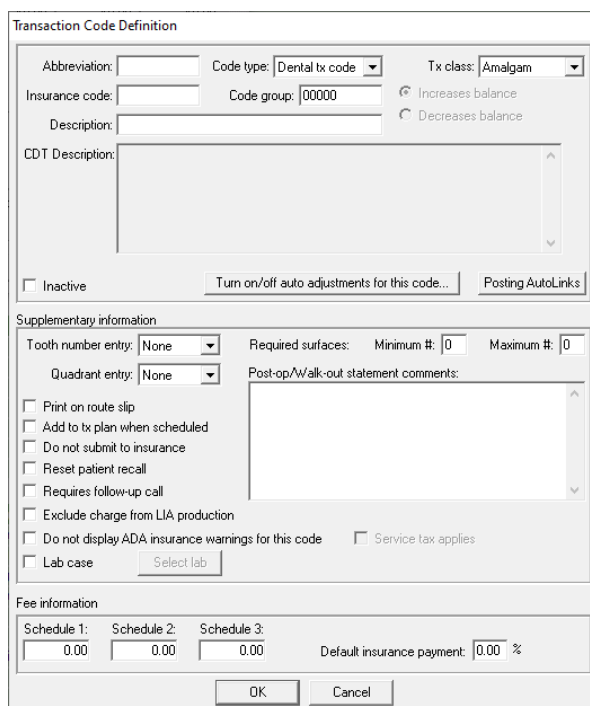

When the CDT 2022 codes are installed:

- Sixteen new codes are added to the database.
- Thirteen codes have revised nomenclature.
- Nine codes have editorial changes.
- Six codes are removed.
- Eight COVID-19 codes are added to the database (adopted in Spring 2021).

To manually add CDT 2022 codes:

1. Click **Lists > Transaction codes**.
2. In the **Ledger codes to display** section, select **Dental Codes** and then click **Add**.
3. Complete the **Transaction Codes Definition** window for each new code being added.
4. Click **OK** to save the changes.

Note: Visit the ADA website (www.ada.org) to find detailed information for the CDT 2022 codes.

Important: When codes are added manually, they are placed in the **Other** category.
